PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and deploying scalable web applications using React.js, Node.js, Express.js, MySQL, and MongoDB. Built and deployed an enterprise ERP platform integrating Koha ILS and Ollama AI within a unified Dockerized environment, and resolved backend performance bottlenecks across ERP modules. Skilled in REST API design, authentication, database architecture, Docker, Linux, Nginx, Git, and Microsoft Azure.

TECHNICAL SKILLS

Languages:	TypeScript, JavaScript, Java, C, C++, SQL
Frontend:	React.js, Bootstrap
Backend:	Node.js, Express.js, REST APIs, JWT
Database:	MySQL, MongoDB
Cloud & Infrastructure:	Microsoft Azure (VMs, Virtual Network, Storage), Docker, Linux, Nginx
Tools & Utilities:	Git, GitHub, Postman, VS Code, IntelliJ IDEA

PROFESSIONAL EXPERIENCE

Junior Technical Associate Trainee — ReTechPrime Technology Solutions, Kolkata **Jan 2026 – Present**

- Develop and maintain full-stack modules for an enterprise ERP platform using React.js, Node.js, Express.js, and MySQL.
- Design and build REST APIs and backend services supporting core ERP functionality.
- Diagnose and resolve slow-performing SQL queries across ERP modules, improving database response times and overall backend performance.
- Build and deploy 2 custom Docker images, integrating Koha ILS, Ollama AI, and the core ERP platform into a unified containerized environment.
- Deploy and manage applications using Docker, Linux, Nginx, and Microsoft Azure.
- Collaborate with the development team through Git-based version control, code reviews, testing, and debugging.

PROJECTS

College ERP & Management System — React.js | Node.js | Express.js | MySQL | Docker | Koha | Ollama

- Built a full-stack ERP platform to manage student records, library operations, and administrative workflows, replacing manual processes.
- Developed REST APIs, JWT-based authentication, and role-based access control (RBAC) for admin, faculty, and student roles.
- Designed the MySQL database architecture and integrated the React.js frontend with backend services.
- Built an automated social media management module enabling cross-platform publishing to Instagram and Facebook with engagement tracking and post analytics.
- Built and optimized custom Docker images to integrate Koha ILS (library management) and Ollama AI (local LLM) directly into the ERP ecosystem.

Library Management System — Java Swing | JDBC | MySQL

- Built a desktop application to digitize core library operations, including student registration, book issue/return, and catalog search.
- Implemented automated email notifications and secure MySQL/JDBC database integration to support day-to-day library workflows.

EDUCATION

Bachelor of Computer Applications (BCA) | CGPA: 7.7 — EILM-Kolkata, Jalpaiguri Campus

2022 – 2025

ADDITIONAL INFORMATION

Languages: English, Bengali, Hindi

Soft Skills: Problem Solving, Teamwork, Communication, Adaptability
